## About JectarOne

JectarOne is an independent, vendor-neutral cybersecurity consultancy based in Casablanca, Morocco. We help small and medium-sized businesses understand their real security risks and fix the ones that matter — clearly, practically, and without unnecessary spend.

## Mission

Help Moroccan businesses improve their cybersecurity through clear assessments, actionable recommendations, and affordable security solutions.

## Vision

Become one of the leading cybersecurity companies in Morocco and North Africa by combining expert consulting with practical software products.

## Services

Service	What you receive	Timeline
Security Assessment	Posture review, risk register, roadmap	1-2 weeks
Vulnerability Assessment	Ranked technical findings + fixes	~1 week
Penetration Testing	Attack narrative, impact, retest	1-3 weeks
Web Application Security	OWASP-aligned review + remediation	1-2 weeks
Security Awareness	Tailored staff training + phishing test	Half-day
Compliance Readiness	ISO 27001 gap analysis + roadmap	2-4 weeks

## Our Process

- **Discovery** — understand the business, systems, and what matters most.
- **Assessment** — evaluate systems and identify risks methodically.
- **Report** — deliver an executive summary plus technical findings.
- **Improvement** — prioritized remediation guidance and a retest.

## Why JectarOne

- Business-focused recommendations tied to your operations and budget.
- Clear reporting for both leadership and technical teams.
- Local understanding of how Moroccan organizations operate.
- Remote and on-site engagements across Morocco.
- Confidential by default — every engagement under NDA.
- No unnecessary jargon.

## Industries We Serve

Healthcare · Legal · Finance & Accounting · Retail & E-commerce · Manufacturing · Technology & Startups  
· Education.

## Company Values

Integrity · Transparency · Technical Excellence · Practical Security · Long-Term Relationships.
